

# Statement of Brookline

Gratuit in behalf of the  
Brookline Engine Company the request the present house  
enlarge by extending it ten feet in the rear, by removing  
the back end entire and filling up the opening in a manner  
to correspond on the out side with the present building. It  
will require an appropriation to do this agreeable to the estimate  
of Mr Stuart fifty five dollars. We also ask seven hundred to be  
furnished with a Stove & Furnace together with two kettles  
one to hold five pails the other three. The stove should be of  
the Lillman form and the kettles to fit into the top. We  
also ask for sufficient appropriation to furnish the house with  
a table, thirty five pails, thirty five spoons. a sufficient quantity  
of fuel - together with refreshments such as chocolate, coffee, & Bread  
& Ham. I presume the company return from arduous duty - either  
by day or night - if required - together with oil - &c -

Brookline May 20 1835

Respectfully Isaac Thayer  
Caleb Clark  
Elisha Moore
